

# Compliance Monitoring

## What is compliance monitoring ?

Compliance monitoring is a type of quality assurance often implemented by state, local and federal government to ensure contracted businesses meet the government's current and ongoing regulations. Compliance monitoring is regularly used internally within businesses to certify the company's code of ethics and practices align or exceed government standards.

## Why choose ILSMD?

ILSMD is your premier compliance monitoring solution providing effective, innovative and best practices to guarantee the success of any program. We have been a valued partner to local, state, and federal agencies in the US for over 20 years. ILSMD provides comprehensive services ranging from logistics management, facility operation, and administrative support.

## Project Spotlight: Prevailing Wages

ILSMD currently assists Prince Georges County, MD in their Prevailing Wage Monitoring Program. We ensure that contracted construction companies are properly classifying and compensating their on-site employees. Before implementing this program the county received numerous complaints about misclassification and underpayment of project employees. We use a two tier system of onsite field interviews and certified payroll audits. Our unique mobile technology allows our multilingual field inspectors to provide accurate and expeditious reporting. Our compliance monitoring team has fostered positive relationships with all stakeholders to guarantee an efficient process.
