General Contract Terms

1a. Table of Awarded SIN(s): SIN Descriptions

SIN	SIN Title	SIN Description
541614	Deployment, Distribution and Transportation Logistics Services:	Services include the following: Deployment Logistics such as contingency planning, identifying/utilizing regional or global resources, integrating public/private sector resources, inventory/property planning, movement, storage, end-to-end industrial relocation/expansion services, and deploying communications and logistics systems to permit rapid deployment and management of supplies and equipment; Distribution and Transportation Logistics Services such as Planning and designing, implementing, or operating systems or facilities for the movement of supplies, equipment or people by road, air, water, rail, or pipeline.
541614SVC	Supply and Value Chain Management	Includes supply and value chain management, which involves all phases of the planning, acquisition, and management of logistics systems.
541611	Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services	Provide operating advice and assistance on administrative and management issues. Examples include: strategic and organizational planning, business process improvement, acquisition and grants management support, facilitation, surveys, assessment and improvement of financial management systems, financial reporting and analysis, due diligence in validating an agency's portfolio of assets and related support services, strategic financial planning, financial policy formulation and development, special cost studies, actuarial services, economic and regulatory analysis, benchmarking and program metrics, and business program and project management. Inherently Governmental services as identified in FAR 7.503 or by the ordering agency are prohibited. It is the responsibility of the Contracting Officer placing the order to make this determination. Ordering activities must require prospective contractors to identify potential conflicts of interest and address those, prior to task order award.
ANCRA	Ancillary Repair and Alterations	Includes ancillary repair and alteration services ordered in conjunction with the delivery, or installation of products or services. These services are non-complex in nature, such as routine painting, carpeting, simple hanging of drywall, basic electrical or plumbing work, landscaping.
OLM	Order-Level Materials (OLM)	OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs. OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

- See Pricing Table below

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not

applicable” for this item.

- See Labor Category List below

2. Maximum Order:

- \$1,000,000.00

3. Minimum Order:

- \$100.00

4. Geographic Coverage (delivery Area):

- Domestic Only

5. Point(s) of production (city, county, and state or foreign country):

- Same as company address

6. Discount from list prices or statement of net price:

- Government net prices (discounts already deducted)

7. Quantity discounts:

- None Offered

8. Prompt payment terms:

- Net 30 days
- Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold:

- Yes

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold:

- Will accept

10. Foreign items (list items by country of origin):

- None

11a. Time of Delivery (Contractor insert number of days):

- Specified on the Individual Task Orders

11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery:

- Contact Contractor

11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day deliveries are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery:

- Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the "Urgent Requirements" clause of its contract and advise agencies that they can also contact the Contractor's representative to effect a faster delivery:

- Contact Contractor

12. F.O.B Points(s):

- Destination

13a. Ordering Address(es):

- Same as company address

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3

14. Payment address(es):

- Same as company address

15. Warranty provision:

- Contractor's standard commercial warranty

16. Export Packing Charges (if applicable):

- N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):

- Contact Contractor

18. Terms and conditions of rental, maintenance, and repair (if applicable):

- N/A

19. Terms and conditions of installation (if applicable):

- N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):

- N/A

20a. Terms and conditions for any other services (if applicable):

- N/A

21. List of service and distribution points (if applicable):

- N/A

22. List of participating dealers (if applicable):

- N/A

23. Preventive maintenance (if applicable):

- N/A

24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants:

- N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at:

www.Section508.gov/

- N/A

25. Data Universal Numbering System (DUNS) number:

- 013327312

26. Notification regarding registration in System for Award Management (SAM) database:

- Registered

Company Capabilities

Integrated Logistics Services, LLC (ILSMD) is in the business of **PROVIDING A CONTAINER FULL OF SOLUTIONS**. We are a dynamic small business with highly experienced and motivated logistics professionals. ILSMD has a strong foundation in professional contracting and procurement support, military training and deployment, support, warehouse operations, inventory management, as well as intermodal freight management.

We provide value in the following areas:

Administrative, Contracting, and Procurement Support

ILSMD provides contracts and procurement advisory services to Government agencies and private companies looking to take advantage of Best Practices relating to their administrative, contracting, and procurement functions. We have substantial experience in federal contract administration and data collection analysis. ILSMD has a full understanding of strategic planning, business planning, and action planning. We manage projects involving all types of contract administration, pricing, and procurement activities. ILSMD provides a variety of **SOLUTIONS** that offer the ultimate flexibility to help our clients meet critical business goals.

Warehouse Operations Support

ILSMD provides all the labor to operate warehouses that are critical to their mission. Boxes of various types of goods are shipped every day. Sustainable supply chain management is at the heart of the operation. Complex interoperable systems work to produce seamless flows of items into and out of specific stock areas. Our responsibilities range from receiving, inventory reconciliation, packing, and distribution.

Military Training, Deployment & Mobilization Support

It is the goal of ILSMD to assist the various Commands involved in the readiness process ensure strategic mobilization objectives through its ability to use best practices, proven processes, and established doctrine. ILSMD has extensive knowledge and experience in supporting our warfighters train, deploy, and mobilize by providing a plethora of service utilities that result in a "Ready" Force. Working to provide high quality services in this area leads to a strong warfighting force. Our contribution to the military's readiness efforts rest in the ability to be well-trained in utilizing multi-dimensional best practices.

Integrated Logistics and Cargo/Freight Management

ILSMD has experience maintaining property control records of all types of equipment. As cargo/freight managers, we provide seamless end-to-end support of all types of items from small single pallet loads to wide and over-dimensional break-bulk. We provide a variety of solutions that offer the ultimate flexibility to help our clients meet critical business goals.

Labor Category Descriptions

1. **Subject Matter Expert I**

Functional Responsibility:

- Provides expert-level domain and functional consulting, analysis, methodological and design support to complex projects. Analyzes critical or highly complex business issues, documents regulations in subject matter field. Has broad range of technical expertise, knowledge of appropriate regulations, and ability to assist or train junior and journeyman level professionals. Functions independently or as part of a team. Interfaces with mid to upper level management constituents. May serve as project manager. Provides innovative solutions to minimize government risk/maximize effectiveness and use of resources.

Job Specification:

- Five years of progressively responsible experience in the particular area of expertise

Minimum Education:

- Bachelor's Degree or Equivalent

2. **Subject Matter Expert II**

Functional Responsibility:

- Provides expert-level domain and functional consulting, analysis, methodological and design support to complex projects. Analyzes critical or highly complex business issues, documents regulations in subject matter field. Has broad range of technical expertise, knowledge of appropriate regulations, and ability to assist or train junior and journeyman level professionals. Functions independently or as part of a team. Interfaces with mid to upper level management constituents. May serve as project manager. Provides innovative solutions to minimize government risk/maximize effectiveness and use of resources.

Job Specification:

- Eight years of progressively responsible experience in the particular area of expertise

Minimum Education:

- Bachelor's Degree

3. **Subject Matter Expert III**

Functional Responsibility:

- Provides expert-level domain and functional consulting, analysis, methodological and design support to complex projects. Analyzes critical or highly complex business issues, documents regulations in subject matter field. Has broad range of technical expertise, knowledge of appropriate regulations, and ability to assist or train junior and journeyman level professionals. Functions independently or as part of a team. Interfaces with mid to upper level management constituents. May serve as project manager. Provides innovative solutions to minimize government risk/maximize effectiveness and use of resources.

Job Specification:

- Ten years of progressively responsible experience in the particular area of expertise.

Minimum Education:

- Bachelor's Degree

4. **Logistics Planner I**

Functional Responsibility:

- Specialized experience in conceptualizing, designing, and developing logistics management systems designed to provide clients with logistics technologies and outcomes that ensure effective and economical support for manufacturing or servicing of products, systems or equipment. Position requires advanced technical expertise to solve complex issues. General experience includes progressive experience in the analysis of government logistics requirements, including in-depth knowledge of government supply chain/logistics, material and engineering management, transportation or other logistics systems, capabilities, and processes.

Job Specification:

- Two years of experience performing duties.

Minimum Education:

- Bachelor's Degree or Equivalent

5. Logistics Planner II

Functional Responsibility:

- Specialized experience in conceptualizing, designing, and developing logistics management systems designed to provide clients with logistics technologies and outcomes that ensure effective and economical support for manufacturing or servicing of products, systems or equipment. Position requires advanced technical expertise to solve complex issues. General experience includes progressive experience in the analysis of government logistics requirements, including in-depth knowledge of government supply chain/logistics, material and engineering management, transportation or other logistics systems, capabilities, and processes.

Job Specification:

- Four years of experience performing duties.

Minimum Education:

- Bachelor's Degree or Equivalent

6. Acquisition/Logistics Specialist I

Functional Responsibility:

- Performs duties which include acquisition planning, contract support, contract/grant administration, and/or closeout activities. Has knowledge of appropriate regulations and terminology. May also perform a broad range of supply, acquisition, logistics, or resource management activities, such as market research, technical writing, household goods and personal property management. Has ability to communicate effectively orally and in writing and has demonstrated skill in relevant automated systems.

Job Specification:

- Two years of experience

Minimum Education:

- Bachelor's degree or Equivalent

7. Acquisition/Logistics Specialist II

Functional Responsibility:

- Performs duties which include acquisition planning, contract support, contract/grant administration, and/or closeout activities. Has broad range of technical expertise, knowledge of appropriate regulations and terminology. May also perform a broad range of supply, acquisition, logistics, or resource management activities, such as market research, technical writing, household goods and personal property management. Has ability to communicate effectively orally and in writing and has demonstrated skill in relevant automated systems. Performs customer service by receiving material requests, ascertaining detailed requirements, providing regular material status both verbally and in writing, and providing end product delivery.

Job Specification:

- Four years of experience

Minimum Education:

- Bachelor's Degree or Equivalent

8. Acquisition / Logistics Specialist III

Functional Responsibility:

- Performs duties which include acquisition planning, contract support, contract/grant administration, and/or closeout activities. Has broad range of technical expertise, knowledge of appropriate regulations and terminology. May also perform a broad range of supply, acquisition, logistics, or resource management activities, such as market research, technical writing, household goods and personal property management. Has ability to communicate effectively orally and in writing and has demonstrated skill in relevant automated systems. Performs customer service by receiving material requests, ascertaining detailed requirements, providing regular material status both verbally and in writing, and providing end product delivery.

Job Specification:

- Six years of experience performing duties

Minimum Education:

- Bachelor's degree or Equivalent

9. Analyst II

Functional Responsibility:

- Performs logistics studies and analyses within areas of expertise. Evaluates metrics, assessing logistic studies, developing plans, conducting research, defining technical objectives, developing program schedules and milestones, and producing quality logistic products related to: support analysis, configuration management, resource analysis and life-cycle cost analysis for a plethora of industry applications. Evaluates operational problems, develop business methods and procedures, including office systems, logistics systems, and production schedules. Analyzes specific problems or aspects of automated supply maintenance/operations working with applicable files, reports, and interfacing with other logistics personnel. Reviews tasking requirements and evaluates current supply operations and functions. Provides training to lower-level personnel in Total Life Cycle Systems Management (TLCSM) and other areas as required. Prepares written reports/presentations to management. Prepares follow-up reports evaluating effectiveness of system implementations

Job Specification:

- Two years of experience

Minimum Education:

- Associate's degree or Equivalent

10. Analyst III

Functional Responsibility:

- Performs logistics studies and analyses within areas of expertise. Evaluates metrics, assessing logistic studies, developing plans, conducting research, defining technical objectives, developing program schedules and milestones, and producing quality logistic products related to: support analysis, configuration management, resource analysis and life-cycle cost analysis for a plethora of industry applications. Evaluates operational problems, develop business methods and procedures, including office systems, logistics systems, and production schedules. Analyzes specific problems or aspects of automated supply maintenance/operations working with applicable files, reports, and interfacing with other logistics personnel. Reviews tasking requirements and evaluates current supply operations and functions. Provides training to lower-level personnel in Total Life Cycle Systems Management (TLCSM) and other areas as required. Prepares written reports/presentations to management. Prepares follow-up reports evaluating effectiveness of system implementations.

Job Specification:

- Four (4) years of experience

Minimum Education:

- Bachelor's degree or Equivalent

11. Analyst IV

Functional Responsibility:

Performs logistics studies and analyses within areas of expertise. Evaluates metrics, assessing logistic studies, developing plans, conducting research, defining technical objectives, developing program schedules and milestones, and producing quality logistic products related to: support analysis, configuration management, resource analysis and life-cycle cost analysis for a plethora of industry applications. Evaluates operational problems, develop business methods and procedures, including office systems, logistics systems, and production schedules. Analyzes specific problems or aspects of automated supply maintenance/operations working with applicable files, reports, and interfacing with other logistics personnel. Reviews tasking requirements and evaluates current supply operations and functions. Provides training to lower-level personnel in Total Life Cycle Systems Management (TLCSM) and other areas as required. Prepares written reports/presentations to management. Prepares follow-up reports evaluating effectiveness of system implementations. Conducts analysis of mission processes, current state analysis, gap analysis, benchmarking, best practices identification, organizational assessment, and other related tasks. Plans and implements process improvements, including:

future state design, change management, and transition planning. May perform cost and benefit analysis. Interfaces with all areas of project including customer, computer services, and client services. Works on complex tasks where analysis of client's data requires an evaluation of various factors.

Job Specification:

- Six years of experience performing duties

Minimum Education:

- Bachelor's or equivalent desired.

12. Analyst V

Functional Responsibility:

Performs logistics studies and analyses within areas of expertise. Evaluates metrics, assessing logistic studies, developing plans, conducting research, defining technical objectives, developing program schedules and milestones, and producing quality logistic products related to: support analysis, configuration management, resource analysis and life-cycle cost analysis for a plethora of industry applications. Job Specification:

- Ten years of experience

Minimum Education:

- Bachelor's degree or Equivalent

14. Senior Configuration Management Analyst

Functional Responsibility:

- Provides configuration management planning. Describes provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulates the change process so that only approved and validated changes are incorporated into product documents and related software. Responsible for effectively tracking, logging, categorizing, and maintaining change. Trains personnel by conducting workshops and seminars on the proper methodology to maintain a proactive Configuration Management program. Provides daily support and direction to staff as to change status requirements, deadlines and problems.

Job Specification:

- Four years of experience performing duties.

Minimum Education:

- Bachelor's degree or Equivalent

15. Configuration Management Analyst

Functional Responsibility:

- Provides configuration management planning. Describes provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulates the change process so that only approved and validated changes are incorporated into product documents and related software. Responsible for effectively tracking, logging, categorizing, and maintaining change. Provides daily support and direction to staff as to change status requirements, deadlines and problems.

Job Specification:

- Two years of experience performing duties.

Minimum Education:

- Bachelor's degree or Equivalent

16. Executive Program Manager

Functional Responsibility:

- Provides overall technical, marketing, customer relations, personnel, and financial management direction of a program or several programs to ensure timely and cost effective accomplishment of contractual commitments. Is accountable and has authority for the performance of contracts. Manages the research program to ensure successful completion of tasks on time and within budget. Maintains relationships with high-level government customers to ensure customer satisfaction. May include Subject Matter Experts with particular functional expertise. Must be experienced as a facilitator of administrative matters associated with program and project development and proficient in directing resources to accomplish contract objectives.

Job Specification:

- Ten years of experience performing duties

Minimum Education:

- Bachelor's Degree or Equivalent

17. Instructor III

Functional Responsibility:

- Responsible for instructing participants on services, procedures, processes, techniques, tactics, products, or skills development. Course delivery typically includes a variety of formats such as lecture, lab exercises, field training, Computer-Based Training (CBT) or Web-Based Training (WBT). Assesses or tests participants on learning objectives. Duties may include participation in course definition and development, with the primary focus on course delivery. May also perform post-event follow-up activities such as documenting on site user training statistics and lessons learned and participating in status calls related to the training. Uses expertise in providing instruction to define operational objectives, complete assignments with high proficiency, and act as a strategic resource. Works on extremely complex problems where analysis of situations or data requires an evaluation of intangible variables. Exercises independent judgment in developing methods, techniques and evaluation criteria for obtaining results. Supervises or provides guidance to other personnel.

Job Specification:

- Six years of experience

Minimum Education:

- Bachelor's Degree or Equivalent

18. Forklift Operator ***

Functional Responsibility:

- Operates a manually controlled gasoline, electric or liquid propane gas powered forklift to transport goods and materials of all kinds about a warehouse, manufacturing plant, or other establishment.

Job Specification:

- One years of progressively responsible experience.

Minimum Education:

- High School Diploma or Equivalent

19. Janitor I ***

Functional Responsibility:

- Cleans and keeps in an orderly condition factory working areas and washrooms, or premises of an office, apartment house, or commercial or other establishment. Duties involve a combination of the following: Sweeping, mopping or scrubbing, and polishing floors; removing chips, trash, and other refuse; dusting equipment, furniture, or fixtures; polishing metal fixtures or trimmings; providing supplies and minor maintenance services; and cleaning lavatories, showers, and restrooms..

Job Specification:

- One year of experience

Minimum Education:

- High school diploma or Equivalent

20. Janitor II ***

Functional Responsibility:

- Cleans and keeps in an orderly condition factory working areas and washrooms, or premises of an office, apartment house, or commercial or other establishment. Duties involve a combination of the following: Sweeping, mopping or scrubbing, and polishing floors; removing chips, trash, and other refuse; dusting equipment, furniture, or fixtures; polishing metal fixtures or trimmings; providing supplies and minor maintenance services; and cleaning lavatories, showers, and restrooms. May be expected to make basic repairs. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May direct and lead the work of others.

Job Specification:

- Three years of experience

Minimum Education:

- High school diploma or equivalent

21. Material Coordinator ***

Functional Responsibility:

- Coordinates and expedites flow of material, parts, and assemblies within or between departments in accordance with production and shipping schedules or department supervisors' priorities. Reviews production schedules and confers with department supervisors to determine material required or overdue and to locate material. Requisitions material and establishes delivery sequences to departments according to job order priorities and anticipated availability of material. Arranges for in-plant transfer of materials to meet production schedules. Arranges with department supervisors for repair and assembly of material and its transportation to various departments. Examines material delivered to production departments to verify if type specified. May monitor and control movement of material and parts along conveyor system, using remote-control panel board. May compute amount of material needed for specific job orders, applying knowledge of product and manufacturing processes and using adding machine. May compile report of quantity and type of material on hand. May move or transport material from one department to another, using hand truck or industrial truck. May compile perpetual production records in order to locate material in process of production, using manual or computerized system. May maintain employee records.

Job Specification:

- Three years of experience

Minimum Education:

- High School Diploma or Equivalent

22. Material Handling Laborer ***

Functional Responsibility:

- Performs physical tasks to transport or store materials or merchandise. Duties involve one or more of the following: Manually loading or unloading freight cars, trucks, or other transporting devices; unpacking, shelving, or placing items in proper storage locations; or transporting goods by hand truck, cart, or wheelbarrow.

Job Specification:

- One year of experience

Minimum Education:

High School Diploma or Equivalent

23. Service Order Dispatcher ***

Functional Responsibility:

- Receives, records, and distributes work orders to service crews upon customers' requests for service on articles or utilities purchased from wholesale or retail establishment or utility company. Records information, such as name, address, article to be repaired, or service to be rendered. Prepares work order and distributes to service crew. Schedules service call and dispatches service crew. Calls or writes customer to insure satisfactory performance of service. Keeps record of service calls and work orders. May dispatch orders and relay messages and special instructions to mobile crews and other departments, using radio telephone equipment

Job Specification:

- Two years of experience

Minimum Education:

- High School Diploma or Equivalent

24. Shipping Packer ***

Functional Responsibility:

- Prepares finished products for shipment or storage by placing them in shipping containers, the specific operations performed being dependent upon the type, size, and number of units to be packed, the type of container employed, and method of shipment. Work requires the placing of items in shipping containers and may involve one or more of the following: Knowledge of various items of stock in order to verify content; selection of appropriate type and size of container; inserting enclosures in container; using excelsior or other material to prevent breakage or damage; closing and sealing container; and applying labels or entering identifying data on container.

Job Specification:

- One year of experience

Minimum Education:

- High School Diploma or Equivalent

25. Stock Clerk ***

Functional Responsibility:

- Performs clerical and physical tasks in connection with locating goods and receiving incoming shipments. In performing day to day, routine tasks, follows established guidelines. In handling unusual non-routine problems, receives specific guidance from supervisor or other officials. May direct and coordinate the activities of other workers engaged in handling goods to be shipped or being received. Shipping duties typically involve the following: Ensuring incoming deliveries are accurate and stocks supply room with new goods; Taking inventory and identifies reorder needs for supervisor approval. Checking order forms, delivery requests, and approval forms to ensure proper documentation, accuracy, and on time deliveries; Verifying that orders are accurately filled by comparing items and quantities of goods gathered for shipment against documents. May keep records of outgoing orders, requisition additional stock or report short supplies to supervisor, and perform other related duties

Job Specification:

- Three year of experience

Minimum Education:

- High School Diploma or Equivalent

26. Supply Technician ***

Functional Responsibility:

- Performs limited aspects of technical supply management work (e.g., inventory management, storage management, cataloging, property utilization) related to depot, local, or other supply activities. Work usually is segregated by commodity area or function, and controlled in terms of difficulty, complexity, or responsibility. Assignments usually relate to stable or standardized segments of technical supply management operations; or to functions or subjects that are narrow in scope or limited in difficulty. The work generally involves individual case problems or supply actions. This work may require consideration of program requirements, together with specific variations in or from standardized guidelines

Job Specification:

- Three years of experience

Minimum Education:

- Bachelor's Degree or Equivalent

Education Required	Education and Relevant Work Experience Equivalency
High School Diploma (HS)	GED
Associate's Degree (A)	HS + 3 Years
Bachelor's Degree (B)	HS + 6 Years, or A + 4 Years
Master's Degree (M)	HS + 10 Years, or A + 8 Years, or B + 4 Years

Product Descriptions

27. **Counterbalance Forklift**

Product Description:

- The counterbalance forklift Flat Fork is a single unit tightly sealed in a rugged ABS box that levels forklift loads with the use of a fork level indicator to ensure pallets and forklifts are not at the wrong angle, reducing damage and keeping forklift loads leveled within an accuracy of 0.25 of 1 degree. Designed to attach to the right side of the mast

Specifications:

- Dimensions – 2 7/8" (L) x 2 1/4" (W) x 6 1/4" (H)
- Weight (with batteries) – 1 lb. 10 z. (734g)
- Power Source – 2 standard "D" alkaline batteries

28. **Reach Truck / Boom Lift**

Product Description:

- The Reach Truck Flat Fork uses 2 paired boxes with RFID technology tightly sealed in a rugged ABS box, with one box attaching to the fork carriage to measure the tilt of the forks, and sends a signal with a clear LED light display to the second box in front of the operator. Two boxes used in conjunction to level reach trucks and boom lifts within an accuracy of 0.25 of 1 degree reducing load, pallet, and rack damage.

Specifications:

- Dimensions – 2 7/8" (L) x 2 1/4" (W) x 6 1/4" (H)
- Weight (with batteries) – 1 lb. 10 z. (734g)
- Power Source – 2 standard "D" alkaline batteries

29. **Extra Rugged Leveler – Counterbalance Forklift**

Product Description:

- The Extra Rugged Leveler Counterbalance forklift Flat Fork is a single unit tightly sealed in a rugged ABS box that levels rugged terrain lifts such as ATLAS II all terrain forklifts and the High Mobility Variable Reach Truck (HMVRT) with the use of a fork level indicator to ensure containers, ISU90s, loaded skids, pallets and forklifts are not at the wrong angle, reducing damage and keeping forklift loads leveled within an accuracy of 0.25 of 1 degree. Designed to attach to the right side of the mast

Specifications:

- Dimensions – 2 7/8" (L) x 2 1/4" (W) x 6 1/4" (H)
- Weight (with batteries) – 3 lb. (1.36g)
- Power Source – 2 standard "D" alkaline batteries

30. **Extra Rugged Leveler – Reach Truck / Boom Lift**

Product Description:

- The Reach Truck Flat Fork uses 2 paired boxes with RFID technology tightly sealed in a rugged ABS box, with one box attaching to the fork carriage to measure the tilt of the forks, and sends a signal with a clear LED light display to the second box in front of the operator. Two boxes used in conjunction to level reach trucks and boom

lifts within an accuracy of 0.25 of 1 degree reducing load, pallet, and rack damage. This Unit is specifically designed for rough terrain machinery to level rugged terrain lifts such as ATLAS II all terrain forklifts and the High Mobility Variable Reach Truck (HMVRT) to reduce damage and keeping forklift loads stable on rougher terrains.

Specifications:

- Dimensions – 2 7/8" (L) x 2 1/4" (W) x 6 1/4" (H)
- Weight (with batteries) – 3 lb. (1.36g)
- Power Source – 2 standard "D" alkaline batteries

SCLS MATRIX

SCLS Matrix for Professional Service Schedule		
SCLS Eligible Contract Labor Category	SCLS Equivalent Code – Title	WD Number
Supply Technician ***	01410 – Supply Technician	2015-4281
Shipping Packer ***	21110 – Shipping Packer	2015-4281
